AUTHOR GUIDELINES

1. The size of the conference materials, fully prepared for printing, is 1 to 4 full pages.
2. All papers should be developed with the help of MS Word, 12 points (*doc, *docx, *rtf), Times New Roman font, single row spacing. Page format is A4; all margins – 2.0 cm.
3. The surname and initials of the author(s) are indicated in the center of the text field (bold font, center alignment, no paragraph).
4. Across the line from the last name (font not bold, aligned in the center, without a paragraph) - academic degree, rank, position, place of work; e-mail
5. The name of theses is printed across the line in capital letters (bold font, center alignment, no paragraph)
6. ATTENTION! References to cited sources in the text are drawn up as follows:
 - the last name of the author and the year of publication of the work are indicated in round brackets (for example, Shumska, 2010)
 - if it is necessary to refer to several sources, they should be presented through semicolons (for example, Afanasyeva, 2016; Bogdanova, Sannikova, 2015; Moore, 2006)
 - if quotations, direct references, etc. are used, the page number of the reference should be indicated (Afanasyeva, 2016, p. 46; Bruner, 2012, p. 24)
7. Graphic materials (diagrams, photos, drawings, schemes, formulas, etc.), tables and other non-textual components are placed in the text and formatted in accordance with generally accepted requirements (numbers of drawings, tables, etc., their names, decoding of numerical designations are indicated). It is advisable not to tear the tables. Graphic materials and tables are separated from the text by a free line
8. The bibliographic description and, if necessary, notes are given at the end of theses after the heading "List of used literature" (through a line after the end of the text, center alignment, without paragraph and colon, normal font) in the order of citation. Bibliographic sources are presented consecutively, without paragraph separation; the name of the author of the work (or the first word of its title) is highlighted in bold. We suggest drawing up a list of literature in accordance with DSTU 8302:2015 (State standard) or in the format Vancouver Style
